PATRIOTIC ALDERSON

The Red Cross Whist Club is to be congratulated on the success which has followed their efforts to raise funds for the Red Cross. On Tuesday a cheque was forwarded by the Treasurer, A. J. Drummond of the Red Cross, to Medicine Hat for \$152.00. The good work is being continued and a big dance has been arranged for Monday evening. Here is the gratifying statement to date:-

Patriotic Fund	\$1341.05
Belgian Relief	74.20
Red Cross	152.00
Total to date	\$1567.25

Commenting on the above showing, the Medicine Hat Times says that Alderson record is one that larger towns might be well proud of. Here is the Times editorial of Wednesday:

A PATRIOTIC TOWN

The town of Alderson has raised the sum of \$1567.25 for Patriotic purposes since the commencement of the war. It was a case of never stop in Alderson. They raise funds by one means and then another, and when their supply of manner and way of raising funds is exhausted they start over again. The citizens of the town of Alderson, have set an example to other towns which is a credit to them, and which they can be justly proud of.

Messrs Harris and Hendrickson of the Great West Life of Medicine Hat are in town this week soliciting business in the North country in a brand new Ford.

U. S. ON VERGE OF WAR WITH GERMANY

The situation as regards war between Germany and the United States reached the breaking point on Wednesday and after laying the whole submarine question before Congress he stated that he had sent a final note to Germany that unless attacks on merchantmen on trying Americans in violation of international law are stopped, diplomatic relations will be severed. The President explained that the note was practically an ultimatum but does not contain a time limit. A demand was made that Germany reply at once.

RESOLVED:-

THAT your neighbors are good people.

THAT no community can rise above the average level of its people.

THAT the dollars which you obtain at home should be spent at home.

THAT when a seller and a buyer have made a trade, based on truth, both have obtained a benefit, and the community to which they belong have benefited, in so far as their interests affect the welfare of the community.

THAT honest exchanges enhance values.

THAT trades based on untruths damage all concerned and approaches very near to theft.

THAT by advertising buyers and sellers brought are together.

THAT truthful advertising promotes the welfare of your community commercially.

THAT untruthful advertising is a fraud.

THAT your home merchants are advertising their wares truthfully & you are privileged to verify this before buying any goods.

THAT you are getting dollar for dollar value for your money.

THAT you are getting immediate delivery of the goods purchased and don't have to wait from two to three weeks for what you need and want at once.

THAT you are not ashamed of having your merchants name on the wrapper containing your goods.

THAT you will have a world of satisfaction and things will look brighter for having spent your dollars at home.

Clean-Up

The cardinal principle of Clean-up Day is to be found in the desire to educate the people to keep their yards in such conditions that no filth is about for breeding places of flies with the consequent spread of disease. It's a waste full what a man can do with a paint brush and a hammer, and while referring to this subject the News would like to emphasize the improvement which trees and shrubs make around a house. The season is far enough advanced for the transplanting of trees and there is no reason why a good deal of work of this nature shouldn't be done.

The Clean-up and Paint-up movement means what the slogan implies. It means cleaning up the front yard, digging the rubbish out of corners, inside and outside, upstairs and downstairs and in the cellar. It means cleaning the streets; it means picking up waste everywhere; it means placing rubbish barrels along the curbstones and inducing people through the influences of the community and through the school and school children to deposit slips of paper and other refuse there instead of on the streets. It means painting the front door which is very apt lead to the painting of the whole house, and then the out-buildings; and as painting usually calls for some sort of repairs to be made before the paint is applied, it means in the end general renovation, and improvement to the decided advantage of the property. Any homestead or any building, the surroundings of which kept cleanly, are of more value to the owner than in a dilapidated condition.

This movement then is a producer of industry. It creates demand for labor, aside from the fact that it is a great sanitary movement.

Go along any of our back streets or alleyways; go through the streets of our country villages; enter any back yard, peer into most front yards with the Clean-Up and Paint-Up idea in mind and any one can readily see just what it means. There is work enough to be done all within the scope of paint-up and clean-up.

More than this, it is a great fire prevention measure. More fires originate probably because rubbish is allowed to accumulate in isolated corners, in-barns and out-barns, than any other cause.

Without particularizing, cleanliness is commendable. It is wholesome; it is good; it is an emblem of civilization, and the Clean-Up and Paint-Up movement, we think, is akin to all the best of reform movements that have taken place in the past.—Medicine Hat News.

SUNNY SOUTH COUNCIL

The Council met in the Adanac Hall, Alderson on Monday at 2 p.m. All councillors were present. Reeve Clarkson was in the chair. Councillor Cairns was present from the Council of King Municipality to secure information as to what the S. S. Council intended doing re the proposition of Dr. McEwen that he be paid a regular salary of \$500.00 per year and that he would give his assistance as a medical man to any sick in the Municipality at half regular rates. Coun. Cairns stated that Dr. McEwen had asked King to raise \$800.00 per year and that they had offered the Doctor half the amount he asked.

The matter was threshed out for an hour but no headway made. It was finally decided that the Council of King and Sunny South would hold joint meeting in Alderson on this Saturday, the 22nd.

There will probably be quite a turnout of ratepayers on Saturday as the matter is being very widely discussed in both townships.

The sum of \$1500.00 will be expended by Sunny South on road-work this summer.

Messrs A. E. Ames and E. Stewart were re-appointed as Weed Inspectors for 1916.

The Councillors drew their quarterly stipends and adjourned.

Tripola

Ptes. Walter Birce and Elwin Potter are at their homes for awhile during seedling.

Mr. and Mrs. Duncan McCracken and baby visited Sunday at the home of Mr. and Mrs. Joe MacIntosh.

Miss Jean McKibbin and brothers J. E. and J. O. McKibbin and R. Strehl motored to G. Lewis' Sunday for dinner.

H. Nunamaker called on G. Lewis Sunday.

Word has been received from Lieut. L. R. Duff that he is still in a Canadian Red Cross hospital at "Eleven Toplow Banks, England and is improving slowly and expects to be convalescing in two or three weeks time, then intends to visit Corp. W. E. McKibbin at East Sandling Camp. We are all pleased to hear of his promotion.

W. MacIntosh is suffering with rheumatism, his many friends hope he will soon be around again.

A. Pendergast made a trip to Medicine Hat Saturday.

J. O. McKibbin accompanied by Messrs W. Wilson, C. Wilkinson and D. O'Keefe motored out to his home here Sunday.

Mr. and Mrs. W. Mustard have moved back to their farm from Barons, Alta.

DATES.

Don't forget the Easter Monday Dance in the Adanac Parlors on the 24th. Good orchestra from Medicine Hat will be secured. Under the auspices of the Red-Cross Whist Club. The best dance of the season.

Buy an Irrigated Farm FROM THE CANADIAN PACIFIC RAILWAY

BECAUSE Irrigation makes the former independent of rain and insures good crops, not occasional, but every year. Irrigation makes possible the successful culture of alfalfa, the king of foragers, which insures best returns in dairying and mixed farming. Irrigation means intensification of farming and close settlement with all the advantages of a densely populated agricultural community. Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the year 1914 having absolutely demonstrated its success wherever intelligently applied. You can buy irrigated land from the Canadian Pacific Railway at prices ranging from \$35 to \$75 per acre, with twenty years' to pay and the privilege of a loan of \$2,000.00 for improvements (6% interest); no principal payment at the end of first and second years and no water rental for first year. Assistance is also given in supplying stock in approved instances.

This is the most liberal offer of irrigated farm land on record

Production and Thrift

To win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and in money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions and by exercising rigid economy, which reduces to the minimum all expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wastage of the war, and find the funds for its continuance. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burden of the conflict still lies before us, and that industry and thrift are, for those who remain at home, supreme periodic duties upon whose faithful fulfilment our success, and consequently our national safety, may ultimately depend.—SIR THOMAS WHITE, Minister of Finance.

PRODUCE MORE, SAVE MORE.
MAKE LABOUR EFFICIENT.
SAVE MATERIALS FROM WASTE.
SPEND MONEY WISELY.

LET US PRODUCE AND SAVE—

The war is now turning on a contest of all forces and resources—men, munitions, food, money. The call to all to produce more and more. It may be said that to work harder. The place of those who are necessary must be taken by those at home, men and women, old and young. The more we can save, produce more on the farms and in the gardens. Save more and help to win the war.

LET US NOT WASTE OUR LABOUR—

In this war-time all labour should be directly productive or should be assisting in production. Make it as efficient as possible. If your labour is on something that can be postponed, put it off till after the war and make your labour tell now. Making war is the first business of all Canadians. Efficiency in labour is as important as efficiency in fighting.

LET US NOT WASTE MATERIALS—

Begin at home. The larger portion of salaries and wages is spent on the home—food, fuel, light, clothing. Are any of these things being wasted? \$20.00 a year saved from waste in every home in Canada will more than pay the interest on a war debt of \$50,000,000.

LET US SPEND OUR MONEY WISELY—

Are you spending your money to the best advantage? What do you think of extravagance in war time? Tens of thousands of Canadians are risking their lives for us at home. Is not our duty to be careful and economical? Canadian dollars are an important part of the war effort. Make them tell. Have a War Savings Account. Buy a War Bond.

SIGNS OF THE TIMES

"Made-in-Canada" Big Victory—Foreign Advertising Cut Out

One of the best known trade papers in Canada has announced a significant change in its advertising policy in its November issue. The announcement is a matter of public interest, and we reproduce the following extracts: "For years this paper has advocated the use of 'Made-in-Canada' hardware, and the agency by retailers of the Canadian-made lines. We believe that there is no other way to build up a really healthy national life in Canada as effective as the creation of a diversified manufacturing industry, as well as successful agricultural, lumbering and fishing industries. Last month we went a step further than ever before and announced that hereafter we would accept no new advertising contracts from any foreign manufacturer unless they start a branch plant in Canada. When we decided, as this policy we expected it would, small a sacrifice, and our expectancies have been realized. So far we have (1) Reduced quote rates by a quarter (2) Held up a quarter page advertisement until the United States firm in which it started in Canadian branch; (3) Lost a full page from a Canadian wholesale firm and (4) Lost half page from a Chicago advertiser. These losses simplify our problem, however. We want to be the great advocate of 'Canadian-made' goods, and the more that anything to prevent that is removed the better."

CREAM AND BUTTER

Big Saskatchewan Creamery Appeals to the Farmers

The home market is ever the big market for the mixed farmer. A thriving town with many shops and warehouses, factories with busy workers, and railway shops with the hum of activity about them, constitute a market for the food products the farmer has to sell.

While manufacturing industries have not developed much where in Canada in the past couple of years, the start which they received four or five years ago has been sufficient to create a body of workers in many Western cities and towns which is more than equal to the absorption of whatever products of mixed farming are available in the West. Instead of the farmer having to go after his market, the market comes after him as "this is the following advertisement is a well known Saskatchewan farm paper recently:

1. Keep up your cream production, because prices will be high this fall and winter. Stocks of butter are very light, and with the strong demand for export, prospects for high prices are favorable.

2. Don't forget that prices for dairy butter are only high during the harvest season, and that cream grades bring much better returns the year round.

3. Ship up your cream now and all ways. It is less trouble than churning, and is cash readily better than trade.

The farmer who is engaged in mixed farming will seriously reduce before he will agree to any big change in a trade policy which has resulted in bringing to his door a ready market for all he has to sell.

AMERICAN POLITICS

Active Campaigns For 1916 Are Getting Under Way

Papers from our neighbors to the South are full of news and editorials regarding the next political campaign, which will culminate in the elections in November, 1916. Already the old cries of "Free Trade" and "Protection" are ringing out through the land, and whatever the result may be the citizens of United States will have ample opportunity of judging the merits of the two systems.

The Republicans are apparently going to run a straight protection campaign, and will use the depressed business conditions that prevailed all over United States in the first two or three years of the Wilson regime as their basic argument on the evils of free trade. They will explain the present great revival in American business as being attributable altogether to the war and the huge war orders which have come to American mills. The following are a few samples of protectionist dogma:

"A Protective Tariff has made the United States the wealthiest nation in the world. Doesn't it seem foolish to destroy the source of our national prosperity by turning it over to all the nations of the world?" "While an increase in the number of persons who till the soil will not increase the value of a bushel of corn, increasing the factories increases the number of consumers who demand the bushel of corn. And a Protective Tariff does this, you understand."

"A total eclipse brings darkness only for a few minutes, but Free Trade darkens the free in the factories for a whole Free Trade administration." "Germany can deliver its Chicago, duty paid, for 40 cents an article costing 20 to 30 cents in a Canadian factory; a German woman can do for 75 cents the same work for which an American man is paid \$1.25; yet Free Trade invited them to rush in their cheap foreign labor prod cut and let the American workman take his place in the soap line. Is it fair?"

CANADA'S TRADE POLICY AND WAR CONTRACTS

Millions—A dollar's worth of munitions of war we now being manufactured in the big rail plants of Canada. If we order for additional goods are the way from the allies.

The wisdom and foresight of those who framed the National Policy and put it into effect has been strikingly justified from a military as well as from an economic standpoint. In time of war our factories are producing our people and property is as times of peace they produced a solid prosperity. If Free Traders had been allowed to put their policy into effect, thereby making Canada an object of the United States, their war orders would not now be issued in the factories of Montreal, Toronto, Hamilton, Winnipeg and many other Canadian cities but would be filed by the factories of Chicago, Buffalo and Philadelphia, upon which we would have been industrially dependent in times of war as well as in times of peace. Protection has not only protected our industries and allowed them to exist and flourish, but it is now enabling us to force weapons in our own country to protect ourselves from our enemies.
